Notes for the digitiser

Gradient	Thread can't render it — 2–3 amber tones, lightest upper-left
Light string	Satin wire, filled bulbs. Do not drop it — it names the trade
Front layout	One composition. Don't centre or separate the wordmark and name
Effects	Flat fill only. No puff, foam, bevel or outline
Back method	Quote embroidery <i>and</i> tackle twill for the wordmark
Names	One per garment — confirm the list before the run
Approval	Sew-out on actual garment fabric before the run
